

2023 Organic Produce Club

Michigan Organic Family Farms

Farming Practices

Healthy food starts with promoting life in the soil.

Our growers are certified organic. Every year these farms are inspected by a third party and certified in compliance with National Organic Program Standards. This is to assure you that no harmful chemicals, pesticides or genetically-modified organism (GMO) seeds are used in the production of your food.

About Our Club

By joining our club, you become a patron of organically-grown produce. Our CSA/club has supported small Michigan family farms for over 10 years. In doing so, we have seen that the unpredictability of the seasons can significantly impact the variety, quality and value of the boxes. Simultaneously, weather variations and the availability of farm help (or not) can create problems for a single farm(er). To provide more value and variety in your weekly box, we will be working with several Michigan family farms in the 2023 season. These will include the growers from previous years, Pleasant Lane Farm and Homer Organic Family Farms. We will also welcome new growers from Green Valley Organics/Marlette, Schwartz Farm/Quincy, Better Way/South Haven and Cherry Capitol Growers/Traverse City. You will find a weekly update in your box with info about the harvest.

What are the benefits?

By subscribing to our club you are supporting Michigan Organic family farms. Not only are members getting the freshest food, but they are also using their dollars to assist and ensure that these farms remain “certified organic”. In appreciation of your patronage, you also receive: a 10% discount on any “in-store” produce purchases, any day, for the duration of the season (May 31—Sept. 30); your choice of three different pickup days, and a pickup location that is super-convenient. Grab and run or choose to shop a well-stocked grocery while you’re here.

What might I see in my weekly box?
