Large 48 oz.

Michigan Fresh Turkey, Pasture-raised $7.50/lb.

From the Circle B Turkey Farm in the northwestern Michigan community of Mancelona, where Jim Biehl and family have been raising turkeys for over 50 years. The birds are allowed to graze the pasture during daylight hours; as night falls they are chased back into the brooder barns for safety. The turkeys have ample room to run and exercise, dine on bugs and grasshoppers, and roost under beautiful shade trees as nature intended. Their forage diet is supplemented with a non-GMO, all-vegetarian feed. No growth hormones, antibiotics or animal by-products are used in the feed. Artificial fertilizers, pesticides and herbicides are never used on the farm. Our Michigan turkeys are grazing on bugs and grasses and roaming freely, giving them an unmatched texture and flavor. Order early, we will sell out!

Peacock Fresh Amish Country Turkey $4.50/lb.

This is the same quality turkey that we’ve been enjoying for over 30 years: natural (no preservatives or additives), minimally-processed without growth hormones, and fresh from farms in the Midwest. Processed in Minnesota and shipped to us “deep-chilled”.

Organic Fresh Turkey $8.00/lb.

Certified USDA Organic, non-GMO and fed a vegetarian diet of organic grains. Raised “Free-Range” by Bell & Evans.
